## Gained in Strength

READ WHAT

### Ayer's Sarsaparilla

did for the Invalid Daughter of a Prominent Lowell Tradesman.

"My daughter had for a long time been troubled with violent headaches and sleeplessness. She was pale, had no appetite, and was losing flesh rapidly. She took various remedies for her trouble, but received no benefit until she commenced using

Ayer's Sarsaparilla. After taking half a bottle, she began to feel better. By a continued use of this medicine, her appetite returned, her cheeks began to fill out and show color, she gained in strength, her headaches disappeared, she slept better, and now says she feels like a new person."—F. P. COOPER, HALL, 6 Lyon St., Lowell.

The report to the effect that a big ship was off port this morning with 400 filibusters on board evidently originated in the arrival of the German ship Marie Hackfeld.

## THE BOARD OF HEALTH.

### THE PROCEEDINGS OF TWO SEPARATE MEETINGS.

The Cabinet Sat With the Board Today—Schools Not in Infected Districts May Open.

At the meeting of the Board of Health yesterday afternoon the first business was the opening of bids for supplying beef cattle to the leper settlement. The contract was awarded to W. H. Cornwell at \$17 per head.

On the proposition of the reopening of the schools a long discussion ensued in which W. O. Smith, T. F. Lansing, Dr. Day, Professor Scott, Minister Damon, W. W. Hall, President Dole and others took part.

It was finally decided that schools in the district of Honolulu may re-open, except those in certain districts the boundaries of which are to be published. No children from the infected districts are allowed to attend any of the schools and boiled water is to be used exclusively in all of them.

The following communication was read from the Chamber of Commerce:

"WHEREAS, The epidemic of Asiatic cholera which visited this city between August 18th and September 18th ceased on the latter date, since which time two scattering cases have been reported; and

"WHEREAS, It is not possible to foresee at what interval of time such scattering cases may occur in the future, or how long it may be before all traces of cholera have completely disappeared; and

"WHEREAS, The resumption of properly regulated inter-island traffic cannot now be attended with any risk to the inhabitants of the other islands of the group;

"Now, therefore, be it resolved, That this Chamber of Commerce does respectfully suggest to the Hawaiian Government and to its Board of Health that the time has come when the restrictions which have been properly placed on inter-island travel and traffic should be so far modified as to practically re-establish such travel and traffic, and no longer subject the same to the great inconvenience and expense now attending the carrying on of trade.

"The opinion of this Chamber is that the following modifications of existing restrictions, may, with perfect immunity from risk, be adopted, viz: All new goods of American, European or Australian manufacture or product, and of Hawaiian growth, shall be allowed to be freely exported from Honolulu to the other islands, always excepting such goods (if any there be) as in the opinion of the medical and scientific advisers of the Government are especially liable to infection.

"Goods of Chinese and Japanese product and manufacture shall be allowed exportation to the other islands only on a special permit from the Board of Health.

"All persons shall once again enjoy the right to travel freely between the islands, subject to the permission of the Board of Health, without which no steamship company should issue passage tickets or carry passengers. At the termination of the period of three weeks from the last occurrence of any case of cholera such permission to be no longer necessary."

Minister Damon opposed the granting of the modification asked for, particularly with reference to the effect it would have on the other islands.

F. M. Swanzy argued in favor of the resolution and stated that the interests of the other islands had been duly considered by the Chamber of Commerce.

Drs. Wood and Day, Henry Davis, J. A. McCandless and others took part in a discussion which ended without definite action, except to invite the Cabinet to meet with the Board today.

The order prohibiting meetings was rescinded upon the statement of President Dole that the early meetings of volunteer military companies was advisable.

### THIS MORNING'S SESSION.

A BULLETIN representative was on hand sharp at 9:30 this morning at the meeting place of the Board, but after some comminatory on the outside with the members, President Smith announced that the meeting would be an executive one and that no open session would be held. The reporter withdrew as gracefully as he could, laughing at the idea of anything being kept secret in Honolulu and well knowing from past experience that all the proceedings could be picked up on the street within a few minutes of the adjournment of the Board.

In calling the meeting to order President Smith said it was desirable if possible to come to some decision that would meet with the views of the Chamber of Commerce and at the same time not antagonize the more conservative ones held by the Board of Health. He thought some system might be adopted by which the goods intended for shipment to the other islands might be packed under supervision of agents of the Board, who would be furnished with a list of all articles which were taken.

A long discussion followed in which each member expressed his views on the matter at issue, which were so much at variance that no definite agreement could be reached.

A motion finally prevailed to refer the whole matter to a committee consisting of Dr. Day, Dr. Smith, T. F. Lansing and J. B. Castle, who are expected to put their heads together and formulate some plan which will be satisfactory to all parties concerned.

The Board decided not to make any changes in the regulations concerning passenger travel for the present, and the meeting adjourned to await the report of special committee.

### Hawaiian Hardware Co.

Under the head of "Timely Topics" the Hawaiian Hardware Company tells the readers of the BULLETIN a couple of interesting stories and at the same time calls attention to a large shipment of goods in their line received by the last Australia, which are allowed transshipment to the other islands.

A list of persons authorized to sign permits is published by authority.

There were two false alarms of cholera suspects reported to the Board of Health this morning.

All pupils of Fort street school are required to assemble at the buildings thereof on Monday morning to be classified for the High School grades.

Dr. Kryshstofovich, a graduate of Kiev's University, Russia, has filed an application for license to practice medicine in the Hawaiian Islands. The doctor arrived lately with his wife and a numerous family.

The Advertiser of this morning gives this paper the following kindly notice: "The EVENING BULLETIN, following the lines of progressive journalism, comes out with enlarged pages and a new make up. The change results in an attractive paper, with more reading matter and a general improvement throughout."

## FILIBUSTERS OR OPIUM.

### MOUNTED POLICE FIRED ON THIS MORNING.

The Tug Eleu and a Detail of Soldiers Chasing a Mysterious Boat and Crew of Five.

A report was circulated on the front this morning that a boat landed near the Kalihi receiving station last night and a big man with red whiskers, two immense pistols and a filibuster accent came ashore and went to a native's house, where he demanded to know where the "red island" was. The native thinking he meant Lanai directed him accordingly and the boat sailed away.

The facts are that about 2 o'clock this morning a telephone message was received from a native boy at the Leper Receiving Station that a large whaleboat containing five heavily armed men had landed near there, and enquired the name of the locality and also the direction of the island of Molokai. The required information was given but after the men had departed the boy telephoned to the police station.

Lieutenant Ernest Renken and two members of the mounted patrol were dispatched to the scene with orders to investigate and if necessary follow up the men and arrest them. The party went to Kalihi but the men had gone. They then followed the shore line searching for the boat and finally saw it at Pualoa about daylight. The boat was stranded and the five men were endeavoring to get it afloat. They were all heavily armed with rifles, pistols and cartridge belts. Lieutenant Renken's men had only their clubs with them, so he sent one of the men back to town at full speed for reinforcements. The strange men and the boat were about 200 or 300 yards distant from the officers, who were hidden in the brush.

Five more of the mounted police were at once dispatched to the scene properly armed at 7:30 this morning, but on arriving at a point near the three-mile house they met Renken and the other policemen returning. They brought word that the men had succeeded in getting the boat afloat and had embarked, but before doing so they fired six or eight shots from their rifles in the direction of the place where the officers were concealed.

When the squad reported at the Police Station on their return Marshal Brown consulted with his superiors and immediately left with a posse of officers in the police boat in search of the strange boat.

After his departure the government determined to send the tug Eleu out and she left a little before noon. She had on board a detail of sixteen men from Company E and a field piece, with Lieutenant Coyne in command with orders to report to the Marshal. At about 1 o'clock this afternoon the tug was observed through telescopes to run alongside the police boat and immediately afterwards turn round and proceed in a southerly direction. She passed the harbor about four miles out going at full speed and at 2 o'clock nothing but her smokestack and a line of smoke off Diamond Head was visible.

It is about time that Opium Brown was due here with another cargo of opium, which has of late become a very scarce commodity, the price for a good article having reached \$32 a pound, or \$16 a tin.

It is expected the smugglers are searching for the island of Kahoolawe with the expectation of

catching a cargo of the drug on that lonesome place.

Kahoolawe lies near Molokai, and contains an area of about 365 square miles or about 30,000 acres. It is used as a sheep range principally, although there are a few cattle. It is leased by Messrs. Kynnersly and Burchardt and is in charge of Thomas Gay. There is only one native family on the island, which offers every inducement for smugglers to make their headquarters there.

### AT THE CATHEDRAL.

The Funeral Services of the Late Princess Poomaikelani.

The last services over the remains of the late Princess Poomaikelani were held at St. Andrew's Cathedral yesterday afternoon by Bishop Willis in the Hawaiian language. The choir of the Cathedral were present and sang two hymns, Wray Taylor officiating at the organ.

Among the mourners were ex-princes Kawanakoa and Kalaniana'ole, Chief Justice Judd, Judge Whiting, Paul Neumann, John Ena and wife, the sisters and pupils of St. Andrew's Priory, Captain Tripp, Mrs. Gulick, Sir Robert Herron, Mrs. Hanaleia, Mrs. Graham Mrs. Smithies and a great many others.

The interment took place at the Mausoleum, the funeral being largely attended.

## THREE PERJURY CASES.

### THE DEFENDANTS COMMITTED TO THE CIRCUIT COURT.

The Opium Charge Against Frank Poor Dismissed—Other Notes From the Police Court.

At this morning's session of the Police Court H. Jourdan pleaded guilty of wandering the streets without any visible means of support and was sent across the reef for fifteen days.

Seven Chinese domino sports will be tried on the 8th for gambling.

The charge of having opium in possession on which Frank Poor was arrested yesterday was dismissed for want of evidence in the shape of the opium itself, and his trial on the charge of violating the rules of the Board of Health postponed until Saturday.

Gibbs and Murphy, charged with perjury, waived examination and were committed for trial at the next term of the Circuit Court under bond of \$1000 each.

Ah Hung's trial on an opium charge was set for the 7th.

Sit Nui forfeited his bail rather than answer the charge of going up Nuanu valley without a permit.

Ah Ying pleaded not guilty to the charge of committing perjury in the trial of one Ah Mun for selling liquor without a license. Ying testified that Ah Mun sold him a bottle of whisky out of the rear of Tom Chan's store for eighty cents, which testimony the prosecution will endeavor to prove at the coming term of the Circuit Court was false. The defendant was committed for trial under \$1000 bail.

Milimili was given three months at hard labor for vagrancy and the rest of the cases on the calendar went over to October 10th.

Lists of the faculties of Oahu College and Punahou Preparatory School are advertised elsewhere. These institutions will open on Monday.

## IN THE HIGHER COURTS.

### REQUESTS OF THE LATE PRINCESS POOMAIKELANI.

Motion to Reopen the McGrew Insurance Case—Argument on the Independent Copyright.

Kesloha Iuko, administratrix of the estate of Ono Iuko, petitions for an order to sell real estate, to raise money for paying debts. She specifies a piece of land at Kawa between the streets leading from King street to Iwilei and the water of Honolulu harbor. It is under lease for thirty years from December 1, 1870, at a rental of twelve dollars per annum, and petitioner has been offered \$1000 therefor. She asks at the same time to have a guardian appointed to protect the interest of George Iuko, a minor in the estate.

Mary Makakehan Harper has petitioned for the removal of C. W. Ashford, absent from the country, from the office of administrator of the estate of William Henry Harper, late of Koloa, Kauai, deceased. J. K. Kahookano is her attorney.

Alfred S. Hartwell, attorney for Lee Wai, respondent in the Chinese theater injunction case, has filed a motion for a hearing on the 7th inst.

The Supreme Court, constituted by Chief Justice Judd, Associate Justice Frear and Circuit Court Judge Whiting, is engaged today in hearing the Bulletin-Independent copyright suit of A. V. Gear et al vs. G. C. Kenyon et al. Dole for plaintiffs; Neumann for defendants.

L. A. Thurston for the defendant has filed a motion for a rehearing of the case of J. O. Carter, administrator of the estate of H. G. McGrew vs. The Mutual Life Insurance Company. The motion will be argued forthwith before the Supreme Court. Its grounds are that the decision rendered in the case is in conflict with several laws, including "An Act to Secure Married Women the Benefits of Life Insurance" and the Married Women's Property Act; and that the Court erred in deciding that the interest of Alphonsine McGrew in the policy on her husband's life passed to her husband upon the granting of the divorce between them, under Hawaiian law, also in ruling that Alphonsine McGrew was domiciled in this country at such time as would subject her interest in the insurance policy to be determined in this case; that all of the foregoing points are material to the decision of this case, but none of them were raised at the previous hearing thereof, and that prior to the rendering of the decision here in Alphonsine McGrew had brought an action against the defendant on the same insurance policy in the State of California, and defendant is advised by its counsel in San Francisco that a decision of this Court cannot be pleaded in bar in that State if it shall be made to appear that any material fact, statute or rule of law affecting her rights in the premises has been omitted to be presented for the consideration of this honorable Court.

A petition from Queen Dowager Kapiolani was filed today, praying for probate of the will of the late Princess Poomaikelani. The estate is worth about \$25,000. Requests are made as follows: To Lolani College, \$1000; to Hilo Boarding School, \$500; to St. Andrew's Cathedral, \$1500; to Kapiolani Maternity Home, \$1000. All the residue of the estate is devised to the Queen Dowager, sister of the deceased.
